Escalante High School
Escalante, Utah

Editor: Lori Porter
Co-Editor: Lisa Leibenguth
Advisor: Anne Spencer

OUR PRINCIPAL

Myron D. Cottam

Dear Studentbody,

We can all be proud of the achievements and progress Escalante High School has made this year. Through much effort and cooperation of students, staff and community, our school continues to improve.

Most all students who desire to participate in school activites may do so. They thus have the opportunity to develop many skills that enhance their academ program. Academically, our students compare favorably with national standards.

Student attitude and spirit have been excellent this year. The pride contest has been a hard-fought battle, with each class competing for positive goals relating to improving education and community spirit. Our students have earned the reputation of not giving up. They, along with the community, played a major role in passing a bond issue that will result in a new high school for Escalante. It has been a united effort by the community of which we can all be proud.

In March, 1987, Escalante High School was evaluated by a team of 12 people from the Northwest Accreditation Association. We were commended for having a good school and were accredited.

Together, we the community, students, and staff, have accomplished many importan goals for education in Escalante and together we can accomplish much more for our students in the years to come.

Sincerely yours,

Myron D. Cottam,
Principal

ADMINISTRATION

OUR SUPERINTENDANT

Dear Escalante Students:

What a tremendous opportunity to be counted as an Escalante Moqui, a friend and Superintendent of your school.

A few presidents ago, President Eisenhower said "The education of all citizens is imperative to the maintenance and invigoration of America's free institutions."

Then President Kennedy stated that "Education is both the foundation and the unifying force of our democratic way of life. It is at the same time the MOST profitable investment society can make and the richest reward it can confer." Then Kennedy was assassinated and President Johnson said "Nothing matters more to the future of our country than education. Not our military preparedness - for armed power is worthless if we lack the brain power to build a world of peace. Not our productive economy - for we cannot sustain growth without trained manpower. Not our democratic system of government - for freedom is fragile if citizens are ignorant." Ford, Carter and Reagan have all followed suit with similar charges.

Today's Escalante Moquis must always remember that however sophisticated our nuclear arsenals and our commitment to world peace, we will never be first in defense, trade or world domination if we settle for second best in education.

As dealers in precious commodities - "YOU" - I urge you to continue to strive for educational superiority. You, the Escalante High School Moquis are the leaders of tomorrow. So much rests upon your ability to reach for the stars. May you cherish your Escalante High School experiences and have this motto to carry you forward:

There is no chance, no destiny,
no fate, that can circumvent, hinder
or control the firm resolve of a
determined soul.

Jerold Judd

SCHOOL DAY MEMORIES

As we reach out our hand,
The diploma we grasp.
While we think of the memories
Of the years in the past.
Tears fill our eyes,
Because it's all gone.
We're starting a new life.
We have to move on.
We hope friends will keep in touch,
As the years pass us by.
Although it hurts inside,
We'll try not to cry.
We think of kindergarten,
And our first day.
Now we've reached the end,
We are going away.
How do you say good-bye
To friends who mean so much?
Will there be time
To sincerely keep in touch?
You'll always have the memories
Of your school years from day one.
Don't think of school as ending,
Think a new life has begun.

ouglas Austin, Carol Simons, and Patrice Cottam.)

NEW SCHOOL TO BE BUILT

This may be the last year students of Escalante High School will spend in the present building complex which has housed the school for well over fifty years.

For over a year now, a very energetic committee has been working to get a new high school building. This dream is finally becoming a reality. A bond election held in July, 1986, was passed overwhelmingly by the people of the county.

The site selected is on the school property east of town, located between the elementary school and the cemetery. Roy Silvers, the architect, has drawn the plans for the building which will contain enough room to meet our growing needs for a number of years and provide for possible needed expansion in the future. The bids are out for the construction of the building and groundbreaking ceremonies were held April 15, 1987. The completion date is projected to be sometime in the spring of 1988.

Architect's drawing of the new Escalante High School.

Elden Griffin-Journeyman Lineman

Between towns, electric lines travel down quiet country roads, across plains, deserts and mountains, through the boyous - reaching far and wide to light up the homes, businesses, farms, schools and churches in rural America – connecting ommunities, one with another.

Rural electric systems form another kind of network, just as vital. We connect the people of rural America in coopera- on. Our consumers are our owners, and in good times and bad, we work hard to anticipate and meet their needs.

How ever we are involved, we build on our strong sense of cooperation in our communities and with our consumers. ogether, we're a power in the land.
